- ADOBE PHOTOSHOP

PROFILE SUMMARY:

To pursue a challenging career and be part of a progressive organization that gives scope to enhance my knowledge, skills & to reach the pinnacle in the computer and research field with sheer determination, dedication and hard work.

EXPERIENCE:

JUNIOR SOFTWARE ENGINEER

Kalsoft Limited

April, 2023 – Present   **Karachi, Pakistan**

I am currently working as a Junior Software Engineer where I am applying my skills to be phenomenal:

- I have successfully worked on an ASP.NET MVC web application, efficiently resolving numerous bugs that were hindering application development, while also showcasing my proficiency in backend development using .NET technologies.

- I possess comprehensive knowledge and have actively pursued learning programming languages like C#, C++, and Java, equipping me with the necessary tools to develop innovative and scalable solutions. This proficiency empowers me to tackle complex challenges effectively and deliver customized software solutions that meet project requirements with excellence.

- Utilized Azure DevOps for version controlling, reporting, and requirement management, streamlining the development process and enhancing collaboration within the team.

- Developed a static website using HTML5, CSS3, Bootstrap 5, and JavaScript, ensuring compatibility across Google Chrome, Microsoft Edge, and Mozilla Firefox. Integrated the website into an Event Management platform, enhancing the recommendation areas such as text, images, videos, and navigation bars.
